Mythics for Multicloud Oracle Deployments

Trusted Oracle Partner
More than 20 years of experience helping federal, state, higher education, healthcare, and commercial organizations succeed with Oracle.

Cloud Licensing & Advisory Experts
Oracle licensing is complex—we make it simple. From Authorized Cloud Environment policies to Bring Your Own License (BYOL) models across AWS, Azure, GCP, and OCI, we help you understand your options and get the most from your existing investments, including support contracts and ULA models.

Seamless Multicloud Integration
Mythics connects OCI, AWS, Microsoft Azure, and Google Cloud so your systems work together. Our multicloud frameworks keep data moving, workloads aligned, and analytics accessible across environments, helping you avoid silos and simplify operations.

Security & Compliance
We ensure your multicloud deployment meets rigorous security standards and regulatory requirements, including FedRAMP, HIPAA, and DoD IL5.

Multicloud Use Cases

Deploy Oracle Database and custom workloads on the platform of your choice with tailored cloud strategies that can also incorporate integration to your Oracle Fusion Applications.
